Have just received a large supply of

August 21.

European Intelligence.

NEW YORK, August 10.

By the British Packet, from Falmouth
and the brig Minerva, capt. Main, from
Bordeaux, we have received London pa-
pers to the 11th, and Paris to the 7th of
June.

The extracts of which we have given
from these papers will be found interest-
ing.

A gentleman who arrived in the British
packet informs us, that just before they
failed, news had reached Falmouth, that
captain Pierson, of the Doris frigate of
44 guns, had an engagement off Brest
with two French frigates, which terminat-
ed in the capture of one of them. Capt.
Pierson lost an arm, and had 28 men kil-
led.

Passengers in the packet—P. Pederson,
esq. charge d'affaires to the United States
from Denmark—Mr. Thomas Martin
Palmer and family—Mr. R. Veitch and
family—Mr. and Mrs. Jones.

Yesterday arrived here from Salou, the
ship True American, captain Tubner.

James M'Evers, esq. merchant, of
this city, came home in the True Amer-
ican.

Captain Tubner informs, that he saw,
off Cape de Gat a Tripoline brig of 16
guns—and as he passed Gibraltar, he saw
a French 74 in port, with the English
colors flying over those of France.—
Markets at Barcelona dull; flour 7 dol-
lars.

The editors of this Gazette, have re-
ceived a letter from captain Pelor of the
brig New York, dated Bordeaux, June 9,
enclosing the French general Mortier's
proclamation to the Hanoverians. He
observes, "within a few days, several
French ships have been taken in the bay of
Biscay, and their passengers landed at
Rochelle." He adds, that "60,000
French troops have marched to take pos-
session of Portugal—but Spain has re-
fused them a passage through their coun-
try."

LONDON, June 2.

Mr. Litton a few days ago, says our
Hague correspondent, notified to the
Dutch government, that Great Britain
was willing to consent, upon certain con-
ditions, to the neutrality of Holland.

The Dutch government received the notifi-
cation with gratitudo, but without the
slightest expectation that France will per-
mit her to remain neutral. Indeed the
first thing the enslaved and enslaving re-
public of France did when she conquered
Holland, was to dictate an offensive and
defensive alliance with her. The Dutch
government, however immediately after
the receipt of Mr. Litton's notification,
resolved to send three deputies to Paris
to explain the situation of Holland, to the
first consul, and to prove that neutrality
could alone preserve her from ruin.

Our Hague correspondent has furnished
us with an striking picture of the state of
Holland at the present moment. Fettered
by a power which treats her as a conquer-
ed country, and calls it friendship; pil-
lages her treasures, and assures her it is
protection; burthen her with troops,
and boasts that it is strengthening her re-
sources; forces her into a war, and talks
to her of her independence; cursed and
insulted by such an ally, she is rapidly
falling to the lowest point of misery and
degradation.

All the hostile acts that have been done
in Holland against this country, have been
at the express order of the French go-
vernment. It was the French Govern-
ment that commanded the seizure of the
two packets at Helvoetvlooy, and the im-
prisonment of the captains, the agent, and
the English messenger. The Dutch it is
said, remonstrated; but their remon-
strances were treated with contempt and
derision.

The French army destined to act against
Hanover, is on its march; but there is
some reason to suppose that the emperor of
Russia will not suffer the peace of the
North of Germany to be disturbed. He
is fitting out a fleet and assembling troops;
indeed it can scarcely be supposed that he
will suffer the work which he had so large
a share in completing, to be so soon vio-
lated and destroyed. Upon what pretence
can France seize Hanover and Osnaburg
and shut up the mouths of the Elbe and the
Weser? Does she call this preserv-
ing the peace of the continent and mak-
ing the war a mere maritime war? We
wait the decision of the emperor of Rus-
sia with impatient anxiety. He can alone
check the career of this disturber of the

human race upon the continent; and his
love of justice, his magnanimity, his tal-
ents, and his power, afforded us a strong
expectation that he will do it.

Admiral De Winter has been ordered to
proceed to the Cape of Good Hope with
his squadron with all possible expedition.

A Lisbon mail arrived this morning.—
The Packet left at Lisbon a British 74 and
two frigates.

Official notice has been sent from the
Batavian government to our post office,
that the communication with this country
must be at an end as they are no longer
permitted to send the mails.

Accounts from the Hague state the pas-
sage of the French troops in Holland across
the Waal, on their march towards Han-
over, and, that the whole army com-
manded by general Mortier is 40,000

strong, of which 24,000 are now on their
march. The French troops have taken a
circuitous route to avoid passing through
the Prussian territory of Munster. Con-
siderable preparations are in the mean time
making in Hanover, for the defence of
that electorate, by the levy en masse.

June 6.

The mails from Paris contain the speeches
of the representative bodies, by whom
the war is unanimously approved. This
unanimity has furnished the first consul
with a pretext for calling the war popular.
When the assemblies themselves shall main-
tain any connection with the people, we
shall subscribe to this declaration. The
addresses to Bonaparte are in a style of gross
adulation; they are full of that scholastic
pedantry and metamorphic maddness that
crood the maiden speeches of our young
parliamentary orators.

The ports of Italy are seized upon, and
that against the English, & an attack is
meditated upon Hanover; it would have
been gratifying if Prussia had been per-
suaded to guarantee Hanover last year;
this power cannot be pleased in having
the French such near neighbors—But its
seizure can be of no service to Bonaparte,
unless he intends it as a bribe for the in-
action of some other power. This, how-
ever, would derange the present balance
of the German indemnities, and Russia
might probably take offence at the over-
throw of a system in which she had so
much concern.

As the war will most probably be con-
tinental, the seizure of Hanover may, per-
haps, pave the way to an immediate alli-
ance with some of the German powers.
Austria is weak, but inclination is not
wanting to the contest: and Prussia, who
has ever been so incurably jealous of the
emperor, may now, with good reason, be
suspicious of France. The nation is
pledged to the most vigorous efforts, and
in this term, if the customary signification
be meant by it, is included continental al-
liances and subsidies; for the most distin-
guished EFFORTS with England have ever
been the promptitude with which her
loans have been made, and the facility
with which she has granted her monied
assistance. The war must be a long one;
possibly the continent may escape three
or four years, but it must join hands at
last, and England is always ready.

Our domestic politics are full of im-
portance; the Pitt and Grenville party
have put Mr. Addington's popularity to
the test, and have been compelled to a
mortifying exhibition of their numbers.—
This is the first open declaration of Mr.
Pitt's conduct; for many years he has
not known what it was to be in a minori-
ty; but, on Friday night he stood at the
head of one, and a weaker we have seldom
known in a question of such importance.
The vindication of ministers is full and
satisfactory.

Dispatches were last night received at
the admiralty, announcing the capture of
the La Pensee, French frigate, of 42 guns,
and the L'Impatiante, corvette of 18
guns. The former was intercepted in at-
tempting to enter Brest, on her return from
St. Domingo, by the Minotaur and Thunderer,
which were detached in pursuit of her by the channel fleet. The latter was
taken by the Naiad frigate, on her passage
from Senegal to Rochelle.

We are sorry to learn that, from the
accounts brought by the officers of the
La Pensee, the French fleet at St. Domingo
has effected its escape to the Havanna;
a harbor whence there is no possi-
bility of cutting them out, without the co-
operation of a very powerful and expensive
military armament.

Yesterday Mr. Tierney was appointed
to the office of treasurer of the navy, and
afterwards sworn in a member of the pri-
vy council.

Mr. Talbot, Dr. Macarthur, and Mr.
Hudson, the secretary, physician and
chaplain to the late embassy, have, with
some other English gentlemen, and about
100 ladies, been permitted to depart from
France, and are arrived in London. Mr.
Talbot waited on lord Hawkesbury yester-
day morning, and had a long conference
with his lordship. All the English ladies
have been liberated by order of the go-
vernment.

A French mail reached town on Satu-
day, and a regular official intercourse is
to be continued; the government of each
country having declared that, under ex-
isting circumstances, it will not be the
first to interrupt it.

The Liverpool merchants are using
all due diligence in fitting out privateers
to cruise against the enemy. Nearly one
hundred are at present under equipment.

Sixty thousand pounds of tobacco, and
14,000 of raisins, were on Friday ex-
ported by certificate to Holland. Under
like authority, a large quantity of East
India goods, cocoa, sugar, and cinnamon,
were at the same time sent to France.

June 9.

The French government has published
an arrête respecting privateers. Among
the encouragements held out for those
vessels, a reward of 40 francs is offered
for each prisoner taken on board a mer-
chant vessel and brought into port; for
each prisoner taken on board armed trad-
ing vessels, 47 francs are given, besides
110 francs for each gun above 12lb. cal-
ibre.

On taking enemy's privateers and
small vessels belonging to the government
it is proposed to give 160 francs for each
gun, from 4 to 12 pounds; 240 for each
of those above 12 pounds; and 70 francs for each prisoner brought into port.

For taking ships of the line, frigates,
and sloops of war, the following rewards
are held out: 210 francs for each gun,
from four to 12lb. calibre; 360 for each
above 12lb. and 60 francs for each prisoner
brought into port.

Dover is full of troops. The Leices-
ter, Oxford, Northampton militia, and
the 15th regiment of horse are still sta-
tioned there. Some more troops are ex-
pected to arrive there in a day or two.

NEW YORK, August 12.

The arrival of the brig William from
Liverpool, and the ship Oliver Ellsworth
from Amsterdam, has furnished the editor
of the Mercantile Advertiser with
London papers to the 5th of June, and
Dutch prints to the 19th both inclu-
sive.

From the latter we learn that Citizen
Laussat Prefect to Louisiana, is appointed
to succeed Bernadotte as Ambassador from
France to the United States. Citizen
Laforet is nominated Ambassador to the
court of Prussia, and Citizen Otto is to
fill the same situation at the court of Ba-
varia.

The Mayor of Brussels, about the 14th
June, received official advices that in the
course of a few days the first consul would
set out on the long expected journey to
the United Departments. An article from
Paris fixes his departure from that city
on the 17th June.

His route, it was said, will be from
Paris to Amiens and Abbeville, from
thence to Bologne (where the port and
the preparations which are making for a
descent on England will undergo his in-
spection) from thence along the coast
of Picardy and Flanders to Dunkirk;
from Dunkirk to Rysel, from Rysel to
Ostend, Bruges, where it was expected
he would arrive by the second July.—
Madame Bonaparte accompanies him, and
his suite will be very numerous. Several
apartments were preparing for the minis-
ters who attend him. The prefects of the
United Departments and many generals
of division had received orders to meet
the first Consul at Brussels.

Between the French and Danish Go-
vernments negotiations were on foot fa-
vorable to the views of the former in the
present war.

Antwerp not having furnished her
contingency of men, that city has been laid
under contribution.

PHILADELPHIA, August 13.
Extract of a letter from New York, dated
August 11, 12 o'clock.

We have just received London papers
to the evening of the 15th June, by the
brig Williams, Ashton, from Liverpool.
The intelligence they contain of the most
importance is the capitulation of Hanover

ibut, Dr. MacLaurin, and Mr. the secretary, Physician and English gentlemen, and about been permitted to depart from and are arrived in London. Mr. and are arrived in London. Mr. and had a long conference with the King. All the English ladies liberated by order of the go-

ch mail reached town on Saturday, a regular official intercourse ised; the government of each wing declared that, under ex-

stances, it will not be the Liverpool merchants are using gence in fitting out privateers against the enemy. Nearly one at present under equipment, thousand pounds of tobacco, and raisins, were on Friday ex-

certicate to Holland. Under

ce they contain of the most

the capitulation of Hanover

to the French on the 4th June—by this convention it appears that all the effects belonging to the King of England are placed at the disposal of the French army, and every English soldier or agent is to be sent to France. The elector to provide the pay, food, and cloathing of the French army, and the French general to levy such contributions as he may deem necessary.

A London article of the 15th states, that Russia and Prussia has conjointly delivered a note to the French government, stating that they would not oppose the occupation of Hanover by French troops, but that it was their intention to preserve the neutrality of Bremen, Hanover and Lubeck.

Extract of another letter August 11, The brig William, Ashton, in 52 days from Liverpool, has just arrived—she sailed the 20th June.

We have received London dates to the 15th June. The Sun of the 13th is now before us, and the following are the most material of its contents:—

Sun Office, half past 2 P. M.

(June 13.)

We stop the press, to state, that his majesty was sent for from Windsor this morning, by express. He arrived in town at 12 o'clock, and a council was immediately held. It was rumoured that the French messenger had brought over propositions for peace. The business must certainly be of importance that would bring the king to town so suddenly.

Dover, June 12.

A French messenger arrived this morning in an open boat (flag of truce) from Calais; he brought dispatches from M. Talleyrand, addressed to Lord Hawkesbury, and set off for town in a post chaise and four, immediately after he landed.

London, June 13.

This morning at 10 o'clock the gentlemen who meant to bid for the loan waited upon the minister at his house in Downing street. The biddings were immediately presented as follows:

Messrs. Esdaile & Shewell, 10 5 long. ann. Goldmid & Co. 8 4 do. Baring & Co. 8 4 do. The Bankers 12 3 do. The Stock Exchange 12 3 do.

Messrs. Esdaile & Shewell of course had the loan.

The other lists, it is supposed had united, v. z. Messrs. Goldsmids, & Co. and Baring & Co. as their officers were the same; and the bankers and the stock exchange had joined their lists.

The votes at which the funds was taken, was nearly thus:

80l. cons. 58 80l. red.

6. 5l. long. ann. 17.

Immediately on its being brought to market, omnium 1² premium, but at half past 12 it had sunk to a greater discount. Consols for opening were at 60¹ but fell to 59¹; and reduced, which was at 59¹, was, at the above stated period, 57¹ for money.

The budget, which will be brought forward this day, will necessarily present taxes heavier than any which have ever been imposed, in one year upon the people of this country. We have already stated the leading articles to be an income duty of five per cent, and very high duties upon malt, sugar, tea, wine, spirits, and an increase of assessed taxes.

We find in letters from Brussels, of the 5th inst. that an Aid-de Camp of the First Consul, passed thro' that city on the preceding day, on his route to Holland, where he was charged with the execution of a confidential mission; from whence it was understood he was to proceed to the head quarters of Gen. Mortier. He was preceded by a Courier from the French Government, who passed thro' Brussels on the same day, with important dispatches, also for that General.

An officer of the King of Prussia's guards likewise passed through Brussels, going in great haste to Paris, with dispatches which were supposed to relate to Hanover. The greatest part of the French army was then concentrated in the county of Bentheim, whilst the Hanoverian troops were assembled on the frontiers of Osnabrück.

Accounts from Cuxhaven, of the 6th of June says that Hanover has been taken possession of by 16,000 French troops.

that a French corps of 8000 were within two days march of Cuxhaven, and that 10,000 were directing their route for Stadt. It was expected that the neutrality of Hamburg, Bremen and Hanover, would not be respected.

MONDAY, AUGUST 15.

IF any thing could raise the sense of pity for that misguided part of our fellow citizens, ycleped, the *understrappers of the party*; we may surely bestow a small portion of that Godlike attribute, upon the proceedings of a *revel* at the little insignificant town of Woodbridge, on the last Anniversary of our independence.

Among their *chasse* and *appropriate* toasts, we find "Judge Chase, Judge Jeffries, and Peter Porcupine—may they ever be remembered as monuments of depravity."

Here we find a small Jeffersonian janto, stigmatize, beyond degradation, a man whom Washington had selected and raised to the high post of a Federal Judge. We all admit, "all Republicans all Federalists," that merit alone found its way to the Father of our country. To revile his chosen Judge, was to mock his memory—but what has been left undene by a certain party, on this head?

We here see a Federal Judge leagued with a Judge of Cromwell's; and a tool of Britain! Wherefore this abominable detraction?—We will tell you—

Judge Chase has dared to exercise the functions of his office by punishing seditious Jacobins, and as long as he holds the rod of justice over them, he will remain a monument of *terror* to evil doers.

For your next patriotic meeting we would offer you "The man who nobly dared to attack sedition, and to scourge a factious phalanx in his country."

At another patriotic place called *South Amboy*, Thomas Paine was given as a toast, with a fulsome eulogium, "or his political and truly rational sentiments to mankind."

Paines nation is England—but we disdain to make a single observation on this firebrand to Religion and Government—he, and his principles are not only known, but now fully understood.

COMMUNICATION.

THE SHOWMAN.

Attend, O ye great masters and misses, to my raree show. I have travelled in all parts, to collect all that is rare and wonderful; and though I cannot shew you a steak from a *Lion's Breech*,* or *Hares* "which have four legs on their back as well as the same number on the belly, first running on one set and then on the other; yet I can bring to your view—The mercy of kings; the virtue of ministers; conscience in a lawyer; piety in a priest; dispatch in a physician; and truth behind a counter. I have for your observation, the benevolence of a President; the humility of Emperor Bonaparte; the wisdom of King George; the modesty of Charles; the carnal abstinence of the descendant of Mahomer; the heroism of Joseph: n^o 1 Alexander; the glory of Lou's 18th; and the infallibility of the Pope.

The first view which I shall present to your astonished eyes, shall be the inside of the walls of a great house in a new city. There you see the Master of this great house, with a map of an extensive country before him, which he contemplates to purchase, though he has already more land than he can manage, and no money to pay for it.

There you see the room, for all the gold, and the silver, and the copper of a great and rich union; and in the corner, you see a French rat, gnawing a great hole into the strong box, and letting run thereout precious metals, into the coffers of a great banker in London.†

Next you shall see 375 wagons, and 1500 horses, all ready harnessed, to carry

* The breakfast of Bruce the Abyssinian traveller.

† See Father Linen's, the Jesuits history of South America.

‡ It has been asserted that the able financier alluded to, lost £40,000 sterling in one negotiation.

the money to be paid for the new country; and there you see 375 plowmen and speculators ready to drive these wagons, all dressed in smock frocks.

From the north east, you observe a fat chuff man, with a big belly, coming to stop the wagons. This man is called John Bull, who is now telling these disguised waggoners, that as they did not consult him, they should not go to Louisiana; & because, quoth John, you have already granted me the privilege among you, of the most favored; and, if I permit you to do, the *Fangs* and the *Islands* will choke up the great rivers there, and I shall have to clear the channel of you all.

Now you see, what was never seen before, "eight thousand souls, who were to be sacrificed for the possession of a country we have now got for a bauble!!!"

The next is a view of a great man, calling together, for great and weighty reasons, his sage men, and the men of the law, at an unexpected hour; and in the back ground you see many distressed gentlemen, whose bread was wrested from their mouths, to feed the insatiable appetites of his followers.

There you see your ships of war decaying in a dry dock, and there again you see your ships of trade robbed of our fellow citizens by John Bull, and plundered by the sons of Liberty and Equality.¶

(To be continued.)

§ Great Britain, by treaty, is entitled to all indulgences granted to other nations now as France and Spain are to have an exclusive right to trade upon the Mississippi, it can be but little doubted but that England will object to this famous negotiation.

Extract of a letter from Cape Francois, dated July 25, received at Bryden's Coffee House, Baltimore.

We are closely blockaded by four English 74's and 6 frigates, which capture all French vessels bound to this or other ports in this island. We have had no arrivals from France these forty days past. Two French 74's and one frigate made their escape out of this port on the 25th inst. with a fine southerly breeze; but it will be almost impossible for them to evade the English. An attack was made by the Brigands on the 22d and 23d. They were repulsed with loss. They have encamped two leagues from town in a large body, and a fresh attack is hourly expected. They appear to bend all their forces on this part of the island. They appear to have a plentiful supply of ammunition, small arms, cannon, &c. All intercourse with them is at an end.

The women and children have left Cape Nichola Mole. St. Marks and Iremie are closely besieged by the brigands.

The Bite is full of brigand barges: American vessels bound up the Bite, from America, would do well to call at this port for information.

French privateers are fitting out daily; and all possible preparations are making to defend the town.

American produce low, except rice, 10 dols. by the cargo; leaf tobacco, 9 do. small stock and poultry, in demand; Bordeaux claret, 45 dollars by the cargo.—There is no probability of supplies from France.

ASSES OF CURES—by Hamilton's Worm Destroying Lozenges. (Selected from thousands) the authenticity of which any person may ascertain, either by letter or personal application.

Dr. HAMILTON's ELIXIR, A sovereign remedy for Colds, Obstruate Coughs, Asthma, Catarrhs, Sore Throats, and Approaching Consumptions.

To parents who may have children afflicted with the HOOPING COUGH.

This discovery is of the first magnitude, as it is an immediate relief, checks the progrès, and in a short time entirely removes the most cruel disorder to which children are liable—the Elixir is so perfectly agreeable and the dose so small, that no difficulty arises in taking it.

From LUTHER MARTIN, Esq. Attorney-General of the State of Maryland.

I comply with your request in stating my opinion of Hamilton's Elixir. It has been used in my family for two or three years past, with uniform success, whenever colds, coughs, or similar complaints have rendered medicine necessary. I have myself found it an excellent and agreeable remedy for a very painful and troublesome affection of the breast, accompanied with soreness and with obstructed and difficult breathing.

On these accounts I do not hesitate to recommend Hamilton's Elixir, as a valuable medicine, and deserving public attention.

LUTHER MARTIN.

Mr. Abijah Henry, Bridge-Street, Baltimore, was cured by one bottle of Hamilton's Elixir of a very complicated disorder, occasioned by a severe cold, caught several months ago. He breathed with the greatest difficulty, and was often thrown into weakening sweats when he attempted to walk any distance, and his voice would frequently fail in such a degree that he could only attempt to whisper, he has been upwards of six weeks without a return of his complaints, and desires to give this public testimony in favour of this invaluable medicine.

Dr. Hamilton's GRAND RESTORATIVE,

Is recommended as an invaluable medicine, for the speedy relief and permanent cure of the various complaints which result from dissipated pleasures—juvenile indiscretions—relief in climates unfavourable to the constitution—the immoderate use of tea, frequent intoxication, or any other destructive intemperance—the unskillful or excessive use of mercury—the diseases peculiar to females, at a certain period of life—bad lying in, &c. &c.

And is proved by long and extensive experience to be absolutely unparalleled in the cure of Nervous disorders,

Violent cramps in the stomach and back, Confinements, Indigestion, Low-spirits, Melancholy, Loss of appetite, Gout in the stomach, Impurity of the blood, Pains in the limbs, Hysterical affections, Relaxations, Inward weakness, Involuntary emissions, Seminal weakness, Fluoribus, (or whites) Obitinate gouts, Barrenness, Impotency, &c. &c.

In cases of extremity, where the long prevalence and obstinacy of disease has brought on a general impoverishment of the system, excessive debility of the whole frame, and a wasting of the flesh, which no nourishment or cordial could repair, a perseverance in the use of this medicine has performed the most astonishing cures.

HAMILTON's ESSENCE and EX-TRACT of MUSTARD,

A safe and effectual remedy for gout, rheumatism, palsey, sprains, bruises, pains in the face and neck, &c. An has performed more cures in the above complaints than all the other medicines ever before made public.

From Dr. Weatherburn, Wythe county, Virginia.

Gentlemen, I purchased at your shop the preparations you call Hamilton's Essence, or Extract of Mustard, which I believe has perfectly removed a chronic rheumatism (of that kind named sciatica, or of the hip joint) under which I had laboured for a long time, and which had baffled every article in the Materia Medica, and every mode of treatment received into practice for the cure of this obstinate disease. If you think this letter useful you are at liberty to make it public.

Yours, &c.

P. WEATHERBURN.

John Hoover, rope-maker, South Second Street, between Mary and Christian- Streets, Philadelphia, voluntarily makes oath as follows, namely, that his wife, Mary Hoover, was so severely afflicted with a violent rheumatism very dangerously situated, the consequence of a severe cold after lying in, as to be confined to bed for several weeks, and was at length reduced to the melancholy apprehension of remaining a cripple for life, notwithstanding the most respectable medical advice was followed and every probable remedy attempted; when

seeing several cases of cures performed by Hamilton's Essence and Extract of Mustard, they were procured from Mr. Birch, No. 17, South Second-Street. The first application enabled her to walk across the room, and the use of one bottle restored her to her usual state of health and strength. JOHN HOOVER.

HAMILTON's

WORM DESTROYING LOZENGES.

Which have within four years past cured upwards of one hundred and twenty thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and form obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever of similar title, so commonly composed of as preparing with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution; contains nothing but what is perfectly innocent, and is so mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or grapping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders.

They are particularly efficacious in carrying off all gross humours and eruptions; feverish and bilious complaints, and are the safest and easiest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body, are chiefly of four kinds, viz. the Teres or large round worm, the Acarides, or small may worm, the Cucurbitina, or short, flat, white worm, and lastly, the Taenia, or tape worm, so called from its resemblance to tape; this is often many yards long, and is full of joints—it is most hurtful, and most difficult to cure.

Among the symptoms attending worms, are disagreeable breath, especially in the morning—Bad and corrupted gums—Itching in the nose and about the seat—Convulsions and epileptic fits, and sometimes privation of speech—Starting and grinding of the teeth in sleep—Irregular appetite, sometimes loathing food, and sometimes voracious—Purging, with slimy and fecid stools—Vomiting—Large and hard stool—Pains and sickness at the stomach—Pains in the head and thighs, with twitches of spirits—Slow fever, with small and irregular pulse—A dry cough—Excessive thirst—Sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to HAMILTON's WORM DESTROYING LOZENGES, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent the vomiting and purging of children, a dreadful disorder which annually destroys thousands of the infant part of our cities. It is likewise the mildest and most certain remedy known and has restored to health and strength a great number when in an advanced stage of this fatal complaint.

Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

TAPE WORM.

Mr. SAMUEL FULLER, Inn-keeper, on the Harford road, ten miles from Baltimore, began about 20 months ago to be grievously afflicted with a tape worm, which increased fast in size and strength, so as to excite the most horrid sensations by its writhing motions and incoerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused such dreadful apprehensions as cannot be conceived but by one in a similar situation—his appetite wasted rapidly, and with that his strength, so that he was unable to attend to any business—when he heard of some excellent cures performed by Hamilton's worm lozenges, he took a large dose, which brought away about FOUR YARDS of the worm (now in the possession of Lee & Co.)—but a renewal of his pains soon convinced him that this monstrous reptile had recovered its first vigour—Application was made to Lee & Co. for more of their medicine, with their advice, from which resulted the total expulsion of his formidable enemy, in several pieces, which he supposed to be SIX or EIGHT YARDS more. A few months have since elapsed, and Mr. Fuller is now in perfect health. The above facts are well known to a numerous circle of his neighbours, and himself will gratify any who may wish to make further inquiries on the subject.

Although Hamilton's worm lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even taken in large doses, as Mr. Fuller will testify—their particular mildness is abundantly evident in innumerable cures of infants.

Communicated by Dr. John Spangler, York-town, Pennsylvania.

Letter from the reverend Mr. JOHN MOL-ther, minister of the Moravian church, in York-town.

York, January 4th, 1802.

Dear Sir,

Dr. Hamilton's lozenges have been recommended to me as a very adequate means for the cure of children afflicted with worms, I procur'd a box for the use of my family, to try, whether by means of this medicine, I might be enabled to gain a point, which, to accomplish, different other means had proved abortive.

My eldest boy had a very sickly appearance, was very restless at night, grew leaner from time to time; in short, he seemed to be in a precarious state of health, which would yield to none of the medicines administered, until I gave him two doses of lozenges, agreeably to the directions, which carried off a substance to all appearance a mere nucleus but upon close inspection quite replete

with very small living animals. Not one of that sort of worms which usually afflict children came from him. Since that period he grew remarkably better in health, and though lean, has got a fresh and lively complexion. Upon different occasions I have used this medicine as a purging substitute, and found it to answer exceedingly well, without bringing on belly-ache, or any of those disagreeable sensations, so often occasioned by purging medicines. Upon the whole, I judge this medicine to be, besides its main object, one of the most salutary means for restoring lost appetite, and promoting a proper state of digestion, by carrying off that bilious substance, which engenders so much indisposition both among children and adults.

I am, Sir, your most obedient servant,

JOHN MOL-ther.
